**Attachments:** CCAPCD Ozone Emergency Episode Plan\_ draft4\_ARBEdits\_2\_EPA 2.docx

Hi Jin,

Thanks very much to you and Doug for the revised EEP. Attached are some additional questions and comments. I also got some input from the monitoring group here about the design value and max ozone numbers.

I understand what Doug is saying about the template EEPs not having very specific language. By adding more detail into the plan, we're strengthening the template for the future. Our best template is [Appendix L of Part 51](#), which has a lot of specific examples.

Thank you again and feel free to give me a call if you want to discuss any of this.

Best,  
Panah

Hi Panah,

We received a revised version of EEP from Calaveras. Please let me know if you have additional comments.

Thanks,  
Jin

Thank you for the comments, Jin. I've made the requested changes. However, I can't add a table with the top 5 emitters in the county as we do not have that data. Other counties appear to use the data in CEIDARS, but we only have one facility listed (we're extremely rural with very little industry).

Also, in response to the EPA's requests, I've tried to accommodate them. My problem is that both Placer and Amador, my sources for our plan, had the existing language approved as it was. I hope the updated language is acceptable.

Thank you,  
Doug

Hi Doug,

Attached are some comments on the EEP we received from EPA Region 9. Some of them are similar to the comments I sent to you before. They also provided their interpretation of "public notice" in the email below. Please let me know if you have any questions.

Thanks,  
Jin

Hi Jin,

Thanks, as always, for sharing this with us. Sorry to have taken all week to reply to you. Our comments are attached and they are quite similar to our comments on the other plans.

I don't know what Calaveras County's timeline is for public notice, but we are happy to take a look at the next draft, too.

Regarding public notice, Clean Air Act Section 110 says that each state shall submit a plan "after reasonable notice and public hearing" and we have generally interpreted that as requiring notification in a newspaper with general circulation. Are there any such newspapers in Calaveras County?

Of course, if there are any state or local public notice requirements that apply, they should be sure to follow those, too.

Thank you again and feel free to call me if you want to discuss anything further.

Best,  
Panah

Hi Panah, Noah, and Rory,

Here is the draft EEP from Calaveras County Air Pollution Control District. Please let us know if you have any comments/edits. It will be great if you can send us your comments next week. If needed, we can set up a call to discuss it as well.

The District also has a question about the requirements for public review. They are wondering if it is OK for them to just post the EEP on their website for the 30-day public comment period? Are they required to post on local newspapers and/or print out hard copies and make them available to the public?

Thanks,  
Jin

Jin,

Attached is Calaveras County Air Pollution Control District Emergency Episode draft. They would like our feedback on this draft before they post it for public comment and bring it to the Board.
